

Introducing the new member of the Mi-Vitamin™ family!

Mi- GlucaChol-22™ Instant Flavoured Drinks

For a healthy heart

- Reduces blood cholesterol levels
- Very high in fibre
- Effective within weeks
- Contains Tolerase® L (lactase)

What is Tolerase® L?

- Tolerase® L is an acid lactase (β -galactosidase) that converts lactose into glucose + galactose
- The enzyme originates from a special strain of the fungus *Aspergillus oryzae*
- It's activity at low pH (3.5 – 5.5) makes this lactase particularly effective to digest lactose in the stomach

What are the benefits of Tolerase® L?

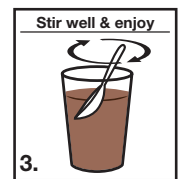

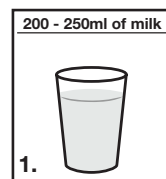

- Tolerase® L helps to eliminate lactose intolerance discomforts like bloating, flatulence, diarrhoea and abdominal cramps that occur after consuming dairy products

How much GlucaChol-22™ Instant flavoured drink should be consumed per day?

- 3g oat beta-glucan is recommended per day for the reduction of blood cholesterol levels
- **2 scoops of GlucaChol-22™ Instant flavoured drink** provides 3g oat beta-glucan

Mixing Instructions:

- Add 2 scoops GlucaChol-22™ Instant flavoured drink into a shaker or glass
- Add 200 – 250 ml low fat or fat free milk
- Stir or shake well until the GlucaChol-22™ Instant flavoured drink is a smooth consistency of a shake
- Drink immediately. Product will thicken if left to stand

Conclusion:

- GlucaChol-22™ Instant flavoured drinks: Convenient, quick and tasty drink
- ♥ May reduce the risk of coronary heart disease by reducing blood cholesterol levels
 - ♥ May improve symptoms of lactose intolerance

What is GlucaChol-22™?

- GlucaChol-22™ is a 100% concentrated oat bran powder made from oats, also known as Oatwell™
- GlucaChol-22™ contains high concentrations of valuable oat beta-glucans, soluble dietary fibres, which are the active ingredients in oats that may reduce the risk of coronary heart disease by reducing blood cholesterol levels

What is the difference between GlucaChol-22™ & GlucaChol-22™ Instant flavoured drinks?

- GlucaChol-22™ Instant flavoured drinks contain the original GlucaChol-22™ with Oatwell™. All of the health benefits are now available in 3 NEW flavoured instant drink applications with added Tolerase® L

	GlucaChol-22™ with Oatwell™	GlucaChol-22™ Instant flavoured drinks
Contains GlucaChol-22™ with Oatwell™	✓	✓
Contains Tolerase® L	X	✓ May improve symptoms of lactose intolerance
